The Department's Work

The Children and the Supporting Families department provides various social care services for residents up to the age of 16 in the county.

The Children and Supporting families department's purpose is to ensure that children and young people are protected from harm; experience stability in their lives and receive the best opportunities for their health and well-being.

There are several teams within the department who work within 3 tiers of need:

1. Early Intervention
2. Care and support, safeguarding, and care needs
3. Specialist Teams

In Gwynedd, we believe that every child and young person should be given the opportunity to reach their full potential. We recognise that children develop best when they are supported to grow and succeed within their families and communities. We also recognise that providing early intervention is critical in helping children and their families to thrive and to reduce the need for more intensive services.

Promoting well-being and supporting families to thrive goes beyond the services of our department alone, and consequently we intend to do further work across all the Council's preventative services to improve our ability to respond to the needs of Gwynedd residents, in a coordinated, integrated and efficient manner.

Ffordd Gwynedd

Ffordd Gwynedd is the name given to the "way of working" that we have adopted in order to put the people of Gwynedd at the centre of everything we do.
