2. Ensure compliance with the Regulation and Inspection of Social Care Act 2016 (RISCA). Keep in touch and cooperation with the CIS inspectors including during inspections and other visits.

What is the Small Group Homes Scheme

- The Small Group Homes Scheme aims to improve the experiences of children in the council's care with intensive and complex needs, who currently have to leave the county or Wales in order to receive suitable provision.
- Development will allow them to receive care in Gwynedd, attend local schools, and be fully involved in the life of their communities.
- The scheme provides stability for children and young people in care and to help them towards future independent living in adulthood.
- The scheme will give the children / young people a cosy home and staff will be supportive to promote the individuals to gain independence and to give them the best start to thrive in their community.

This is a unique opportunity for you to develop a role where you can make a real difference to young people's lives in care.

It's an opportunity for you to work with Social Care experts and to learn new things. It'll be a varied job and every day will be different. There will also be plenty of opportunities for you to attend training and develop yourself on an ongoing basis.

You'll have the opportunity to work in Gwynedd and enjoy all that working in the area has to offer!

Work of the department

Children and Supporting Families

The Children's department provides a variety of social care services to children and young people up to the age of 25 in the county.

The purpose of the Children and Supporting Families department is to ensure that children and young people are protected from harm; experience stability in their life and have the best opportunities for their health and well-being. The Small Group Homes Scheme where the resident worker will be involved brings children in care back to their communities and access services and education through the medium of Welsh which are many of the children's first language.

In Gwynedd we believe that every child and young person should have the opportunity to reach their full potential. We recognise that children develop best when they are supported to grow and succeed within their families and communities. We also recognise that offering early intervention is essential to help children and their families thrive and to reduce the need for more intensive services.

The objective of the services is to provide the best service possible to enable, support and promote people to live fulfilled lives and independently as possible. The department will focus on the life of the child, offering a flexible service, fully 'person-centred' and is based on quality and emotion. The department will promote the individuals who use the service to have a voice, control and choices over their own lives and of the services they receive. The department shall try to promote the physical, emotional, mental or social needs of individuals.
